⚖ **LEGAL RESEARCH PORTFOLIO:**
www.jonathanhollowayportfolio.netlify.app/legal-research

PROFESSIONAL SUMMARY

Full-stack software engineer with 4+ years of production consulting experience across Fortune 500 clients in financial services, technology, agriculture, and food industries — and a versatile professional background spanning healthcare insurance, customer service, quality assurance, and hospitality. Skilled across C#, TypeScript, JavaScript, Python, React, Angular, Node.js, ASP.NET, .NET Core, SQL Server, MongoDB, Docker, Azure, and CI/CD. Licensed Life, Accident & Health Insurance Professional (Indiana License #3968155 — Active). Certified Scrum Master. U.S.-based remote-first professional since 2019.

CORE COMPETENCIES

Engineering	Insurance & Healthcare	Operations & Leadership
Full-Stack Development · API Design	Licensed L/A&H Insurance (Active)	Certified Scrum Master
React / Angular / Node.js	Claims Processing & Research	Project Management (PM Lead)
C# / ASP.NET / .NET Core	Benefits & Policy Verification	Agile / Sprint Planning
Azure / CI/CD / Docker	HIPAA Compliance · QA Monitoring	Quality Assurance & Reporting
ElasticSearch · MuleSoft ESB	Member Advocacy · CRM Systems	Mentorship · Technical Training

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer Consultant | *Perficient, Inc.* 2019 – 2023
Remote · Fortune 500 Clients: Financial Services, Technology, Agriculture & Food

- Contributed to design, development, testing, and maintenance of production applications for Fortune 500 clients — working within existing codebases to deliver features, performance improvements, and security hardening.
- Designed and built GraphQL and RESTful API services with secure data flows between backend services and React frontends, including authentication, error handling, and session management via MuleSoft ESB.
- Architected headless CMS integrations with React; built reusable component libraries enabling content teams to manage pages without code deployments.
- Engineered C#/ASP.NET backend services and MS SQL data layers supporting enterprise workflow applications; contributed across Angular and React frontends on the same platforms.
- Built WPF-based frontend components for a vending machine management application on Windows-native stack (C# / .NET).
- Led development of pandemic-response leave management system achieving 100% operational continuity through CMS-driven forms and dynamic React rendering.
- Optimized ElasticSearch filtering algorithms and integrated third-party APIs including currency conversion tooling to resolve global user experience gaps.
- Developed Jest testing framework increasing code coverage by 40%; engineered security mechanisms blocking thousands of breach attempts while maintaining ADA/WCAG compliance.
- Managed Git-based version control; deployed and maintained applications on Azure using CI/CD pipelines.
- Led daily standups, sprint planning, and backlog management as Certified Scrum Master; mentored junior developers through pair programming and code review.

Technical Teaching Assistant / Labs Team Lead | *Bloom Institute of Technology* 2018 – 2019

Remote

- Guided distributed cohort through full-stack curriculum (JavaScript, React, Node.js, databases), achieving 100% graduation and project completion rate through individualized technical support.
- Coordinated project timelines and managed Agile team activities, conducting daily standups and removing technical blockers for junior developers.

Project Manager — Larkist (larkist.com) | *Bloom Institute of Technology — Labs12 Capstone* 2018 – 2019
Remote

- Led 5-week capstone sprint as PM, coordinating full-stack engineers and data scientists to build an AI-powered Twitter application from concept to production launch.

Quality Assurance Analyst — Healthcare Insurance | *Teleperformance* Dec 2015 – Feb 2018
Healthcare Customer Service, Claims & QA Compliance

- Managed inbound healthcare insurance inquiries for members: medical benefits, PCP changes, specialist referrals, claims status, and coverage questions.
- Processed and researched insurance claims; coordinated with providers to resolve discrepancies, verify eligibility, and ensure accurate claims adjudication.
- Explained complex policy benefits in clear, accessible language — coverage limits, deductibles, copays, and network requirements — to members with varying financial literacy.
- Resolved escalated member concerns including coverage disputes, billing issues, and claims denials with empathy and professionalism.
- Monitored CSR calls against quality guidelines and HIPAA/regulatory compliance standards; maintained 90%+ calibration accuracy.
- Provided real-time coaching and structured feedback to improve call quality, reduce errors, and enhance member satisfaction scores.
- Created Microsoft Office-based reporting tools to track quality metrics, identify training opportunities, and support continuous improvement.
- Recognized as Employee of the Month (three nominations, one award) and Blue Diamond Award recipient.

Customer Service Representative — Healthcare Insurance | *Teleperformance* Dec 2015 – Aug 2016

- Delivered compassionate service to healthcare insurance members navigating benefits, claims, and policy inquiries.
- Verified member eligibility, updated account information, and processed routine service requests with accuracy.
- Resolved complex issues related to provider networks, out-of-network charges, claims delays, and coverage clarifications; maintained detailed CRM documentation.

Customer Service / Sales Representative | *ORC Protel* Aug 2015 – Dec 2015
Dubuque, Iowa

- Assisted inbound customers with service inquiries, product explanations, and account setup.
- Resolved billing inquiries and account issues; processed account changes while maintaining professional demeanor.

Warehouse Associate | *Nordstrom* Dubuque, Iowa

- Loading and unloading trucks; removing and applying seals; packing and unpacking materials; cleaning as needed.

Customer Support Representative | *McGraw Hill* Dubuque, Iowa

- Troubleshot customer issues over the phone with attention to detail and efficient resolution.
- Communicated productively with customers on technical and account-related inquiries.

Membership Sales & Retention Representative | *WS Live* Dubuque, Iowa

- Assisted customers with membership sign-up and inbound service inquiries.
- Retained customers seeking to cancel memberships through empathetic, solution-focused conversations.

Laundry & Housekeeping Associate | *Hotel Julien Inn* Dubuque, Iowa

- Responsible for quality of laundry washing, drying, and stocking.
- Tracked and documented issues with equipment and products; nominated for Employee of the Month twice.

PERSONAL PROJECTS

Fleek Session Events App — React, real-time notifications, secure auth, calendar integration
github.com/codejoncode

Crypto Currency Dashboard — React Context API, Styled Components, Node.js/Express backend with live API integration

LEGAL RESEARCH PORTFOLIO

Independent Legal Research & Analysis — Pro Se Respondent · *Indiana Dissolution Proceeding*
Independently researched Indiana family law statutes and appellate case law; identified and applied the one-pot marital asset disclosure rule (Ind. Code § 31-15-7-4); drafted and filed four procedurally compliant court documents within statutory deadlines — without attorney assistance.
